## **EMPLOYMENT DETAILS :**

**TATA Consultancy Services, Hyderabad. (17 June 2019 - Present) Position : Systems Engineer.**

## **ROLES, RESPONSIBILITIES, PROJECTS :**

**Project :** GEO-R disaster management in Telecom domain.

**Role :** Developer

**Technical stack :** Java, Git, Docker, Kubernetes, Jenkins.

### **Description:**

The purpose of GEO-R solution is to facilitate continued management of Network elements in the event of disaster. GEO-R allows a standby to take over network management if primary network management is disabled – for example, if natural disaster occurs.

GEO-R feature developed to migrate all the applications and data from primary server to secondary server. All the data will be encrypted and archived and stored in tar file. Tar file will be exported to secondary server. This Tar file will be imported on secondary server and all the application will continue to run on secondary server.

### **Responsibilities:**

- Worked as Developer in GEO-R disaster management.
- Debugged various customer problems and provided solution to the intended customer.
- Mapping the client's requirements with the application.
- Code enhancement to support the export and import of the applications and data.
- Defect fixing identified during testing phase.

**Project :** E-commerce web application

**Role :** Developer

**Technical stack :** Magento, Git, PHP, MySQL, HTML, CSS.

**Description :** It is E-commerce web application developed to buy Envelopes. In this E-commerce web application end user has all the features like signup, product description, adding product to wishlist, Adding product to cart and placing the orders. End user can request for customization of product design.

### **Responsibilities :**

- worked as backend developer in E-commerce web application.
- Customization according to customer requirements
- Mapping clients requirements with the application
- Defect fixing identified during testing phase.
- Adding new features to E-commerce web application.

**INTERESTS:**

Chess, Desire to learn and grow.
