ABHILASH BHALERAO

Software Test Engineer

EmailID: abhilashbhalerao09@gmail.com

Mob No:+91-8446184773

Objective:

I am looking forward to work in an organization, which provides the environment for growth with competent and strong leaders in **Manual, Database Testing, BI Testing, ETL Testing** having an experience in **Functional**, **Non-Functional**, **Globalization** , **API Testing** , **Web service Testing** . I have an urge and inclination for learning new technologies, a strong work ethic combined with a commitment to excellence in all projects undertaken.

Executive Summary:

- A detail oriented professional with **3.2 years** of experience in Software testing that includes experience in **Manual Testing**, **Database Testing , BI Testing, ETL Testing.**
- Strong experience in the entire **Software Development Life Cycle (SDLC) and Software Testing Life Cycle (STLC)**.
- Interacted with **Siebel CRM**, **Telecom Billing**, **Adjustments Notes**, **Data warehouse** applications.
- Operated under **Agile** and **Scrum** frameworks to complete releases every timeframe and well-organized sprints.
- Created comprehensive **test plans**, **test scripts**, and **use cases** to support testing objectives
- Designed testing scenarios for **usability testing**.
- Developing **functional testing cases** and performing **end-to-end** phases of test execution.
- Experience in Quality Assurance testing with a focus in **ETL (Extract, Transform, Load) Testing**.
- Extensive knowledge of **data warehousing concepts**, such as slowly changing dimensions **(SCD)**, and relational and dimensional **data modeling techniques**.
- Worked on **ETL tools** like **SSIS/ Informatica** .
- Perform **backend data validation/testing** on target table in terms of transformations, Duplicate , Null value , Count , mandatory , Data types , Length ,Constraints.
- Worked on **Tableau BI Tool** and good to have experience on other BI tools like **Power BI, OBIEE** etc
- Good knowledge in Dimensions and **Facts table, Star schema** and **snowflake schema**
- Hands on experience in writing **complex SQL Queries**.
- Performed back end testing/ Database Testing using SQL to verify the integrity of the data
- Expert knowledge in creating **Agile Test Plans**, **Test Cases**, **Test Scenarios**, Defect Management to ensure **Quality Assurance** and to test all the business requirements.
- Actively involved in Review test case and preparing **Traceability matrix** to map the prepared Test case with Design test case.
- Strong identification and mitigation of existing data defects and errors
- Proficient experience in **Test Case Design , Test Execution , Bug tracking and Reporting**
- Experience in preparing test reports from **HP ALM** and prepared daily test status reports to communicate the test status with the team.
- Good understanding of **Postman** & **SOAPU**I in **API Testing**
- Experience in writing **UNIX** commands for **file validation**
- Extensive experience in developing **SQL scripts** to validate the databases tables and reports data

for database testing using **DML** and **DDL** commands.

- Analyse & Review Execution , **Prepare Test summary & Reports**, **Troubleshooting** failing test cases
- Participate in **Scrum meeting** to discuss about project progress report everyday
- Good understanding and experience of Manual Testing, related processes and Test Case Automation Readiness preparation.

Educational Qualification**:**

- **Bachelor of Engineering** from **PCET-NMIET** Pune University (2019)

Professional Experience:

Designation	**:** Software Test Engineer
Organization	**: Amdocs , Pune.**
Duration	**:** 20 August -2019 To till date

Skill Profile:

- **Operating Systems** : Windows XP, windows 8, windows 10, Linux
- **Language** : SQL
- **Database** : SQL Developer Oracle 10g
- **Testing Tools** : JIRA , HP-ALM , Bugzilla ,SSIS,Informatica.
- **Software Testing Skills** : Functional Testing ,ETL testing, BI Testing,Web Service Testing, Database Testing.

Project No.1**:**

- **Project Name** **:** AT&T OC
- **Domain** **:** Telecom Domain
- **Client** **:** AT&T
- **Environment** **:** Oracle 9i, JIRA, SQL Developer.
- **Testing Methodology** **:** Manual testing, Functional Testing, Database Testing , ETL Testing
- **Role** **:** Software Test Engineer

Description:

Order Capture is an **AT&T** project that will automate and simplify the existing ordering process of Enterprise customer product such as (IPFLEX, VPNs, ETC...). Enable AT&T to move existing customers from the old products (not VOIP) to the new products. **Order Capture** Amdocs products (OMS, EPC, CRM) will be integrated in the sale and provisioning process as part of the main module that captures the order information 2 type of AT & T products are in scope "IPFLEX (also referred as BVOIP) & SDN"

Responsibilities:

- Understand the customer requirement by analyzing **SRS document.**
- Involved in **designing the Test Case.**
- Participated in the **Test case review meetings**.
- Executing **Test cases / E2E flows**
- Deploying **Hot fixes** in the Environment and bouncing Environments in the maintenance window.
- Responsible to test complete Tele-come **CRM** and **OMS** systems.
- Execution of **CRM/ OMS** E2E flow along with 3rd party **OMS applications**.
- Responsible for testing 3rd party applications with real Amdocs provisioning system.
- Performed **Functionality Testing, Retesting and Regression Testing.**
- **ETL testing**, validating data from source and destination
- Writing SQL queries, Data validation testing
- Testing the mappings which are based on **SCD-1** and **SCD-2**.
- Performed Database Testing at Application level and analyze data types and length from LLD
- Interact with developers and discussed technical problems, **Bugs Tracking.**
- **Reporting** the **Regular status** to the higher authorities in a timely manner.
- **Involved in Backend Testing.**
- Effective co-ordination between development team and testing team

Project No 2 :

- **Project Name**   : CRM - US Cellular
- **Domain**   : Telecom Domain
- **Client**   : US Cellular
- **Environment**   : Java, JIRA, SQL.
- **Testing Methodology**   : Manual testing, Functional Testing, Database Testing, ETL Testing
- **Role**   : Software Test Engineer.

Description:

US Cellular, is a telecom company in the US. US Cellular provides wireless services with Excellence guarantee with 4G LTE. The required BSS (Business support system) for this implementation is developed by Amdocs. This implementation has most of the products from the Amdocs 8.1 Portfolio. Along with CRM, OMS, Billing, EPC Portfolio components this implementation has several other 3rd party applications like BORG, HLR.

Responsibilities:

- Responsible for testing deliverables, prioritizes and monitors activities to meet such dates for individual assigned features.
- Execution of **test cases** from Test Lab in **JIRA** tool.
- Identification of defects, registering them in JIRA and reporting them to the onsite lead.
- Performing **Functional Testing, Regression Testing** and **Re-Testing**.
- Validation of Expected output vs Actual output in respective database tables Using **SQL**.
- Active participation in weekly/daily status calls with the client.

- **Requirement Analysis**: Understanding the requirements and communicating with BA team for better understanding of the requirements.
- Responsible to test complete Tele-come **CRM** and **OMS** systems.
- Identified End to End Test Scenarios, Test Cases and Test Data.
- Writing effective and optimized Test Cases in **JIRA** using **Black Box Testing techniques**.

Project No 3:

- **Project Name**   : **Safaricom PLC**
- **Domain**   : Telecom Domain
- **Client**   : Safaricom PLC, Kenya
- **Tools**   : Manual Testing, SoapUI, Quality Center& RALLY.
- **Role**   : Software Test Engineer.

Description:

The project objective is to enable Comcast to bid for and provision multi-site orders that expand beyond the Comcast networks. The project implementation will enable Comcast to request serviceability and quoting, and to place orders for broadband services on or off-net. In addition, it will allow third parties to request the same services from Comcast for locations that are within the Comcast network.

Responsibilities:
- Work distribution among the team and tracking the team activities.
- Participating business meetings with all POs and address all the requirement issues with respect the testing.
- Involved in the participation of every iteration
- Prepare test strategy and review the Test Cases as per HLDs
- Deploying Hot fixes in the Environment and bouncing Environments in the maintenance window.
- Responsible to test complete Tele-come **CRM**, **OMS & EPC** systems.
- Execution of CRM/ OMS E2E flow along with 3rd party OMS applications.
- Responsible for testing 3rd party applications with real Amdocs provisioning system.
- Good Co-ordination with Infra, development and implementation team.
- Performing Functional Testing, Regression Testing and Re-Testing.
- Validation of Expected output vs Actual output in respective database tables Using SQL.
- Active participation in weekly/daily status calls with the client.

Personal Details:

- **Name**   - Abhilash Ananda Bhalerao
- **Birth Date**   - 08 Nov 1993
- **Gender**   - Male
- **Current Address**   - 46 Jay Apartment , Rao colony , Talegaon Dabhade , Maval , Pune 410507
- **Permanent Address**   - Same as above
- **Language known**   - English , Marathi , Hindi

Declaration:

I hereby confirm that the facts stated in this application are true to the best of my knowledge.
